

## Blast Work Checklist:

- How close can the compressor get to the site?
- How high do the blasters have to reach?
- Is there a place to dispose of used material?
- Is there a water source?
- Is there power available?
- Are dogs or cats a concern?
- Is there a lockbox for overnight storage?
- How can they access the house if the owner is away?
- Is there a bathroom available?
- Do they need to be concerned about foliage?
- What are the concerns of the customer?
- Where does the job need to be done specifically?
- How much needs to be blasted?
- What media do the blasters need?
